

DexBasket

Tipless Stone Retrieval Basket

Tipless Design for Atraumatic Application

Captures calyceal stones at the base of the kidney's calyces
 Round wire design reduces risk of mucosal damage
 No critical joints between the basket and shaft

Super-Elastic Nitinol Alloy

Extremely flexible and kink resistant baskets, can be bend up to 270 degrees in a flexible ureteroscope
 Small sheath diameter improves irrigation flow and permits better view

Custom Lengths and Sizes available

60 cm shaft length optimized for veterinary applications
 300 cm oversized shafts available for large animals

Diameter	Length	Basket diameter straight
1.3 F	60 cm, 120 cm	08 mm
